# About us

Bounce revolutionizes retail trading with an intuitive platform tailored for everyday investors. With a \$10 trillion market, we offer advanced tools and insights for explosive growth.

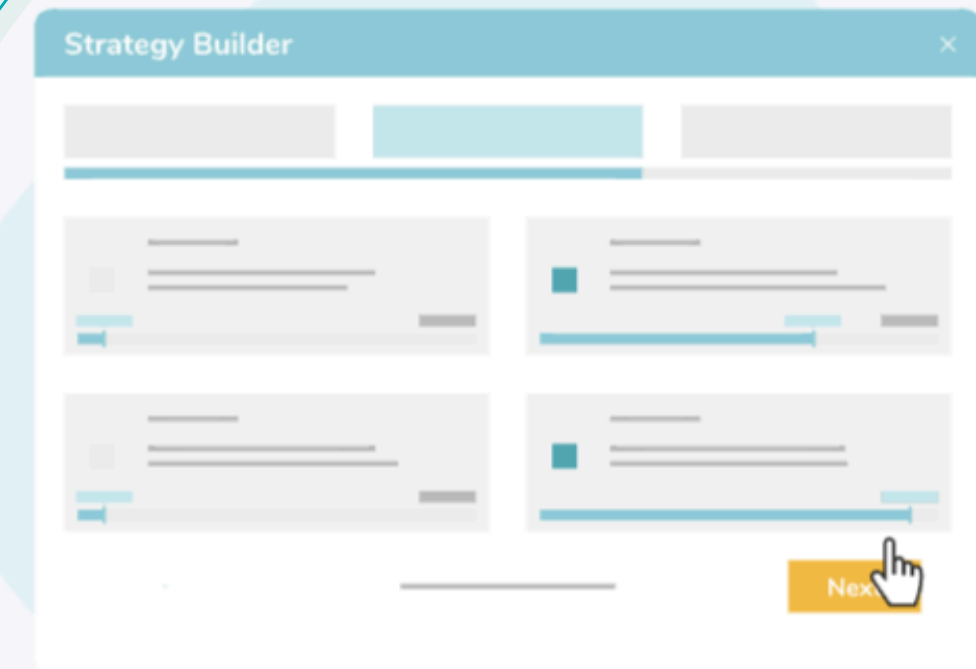

## Democratizing Market Data and Technical Analysis

We believe in access to accurate market data for all traders. Bounce simplifies complex information, empowering beginners to make informed decisions.

## Automation for Effortless Trading

Bounce automates trading tasks, saving time on research and strategy development. Let technology handle the heavy lifting so you can focus on smart trades.

Whether seasoned or novice, Bounce equips traders for success in today's financial landscape.

# The Strategy Builder

Unique proprietary software for beginner/intermediate traders.

Our Strategy Builder lets anyone craft a mix of technical criteria, creating a powerful stock funnel. This allows you to generate more frequent trading opportunities with a higher success rate through back testing and automation.

## How does it work?

Create a unique Strategy with specific technical characteristics, and we'll automatically apply it to the real-time market. No need to decipher charts – receive a real-time alert (the Playbook) when your strategy uncovers a trading opportunity.

## What's in The Playbook?

It's your trade guide, detailing entry points – what stock to trade, buying prices, target and stop-loss amounts. Track your trade effortlessly and get a text alert for the perfect exit.

# Our Enterprise Plans

Alongside our B2C offering for individual retail traders, Bounce also provides highly customizable enterprise plans. These plans unlock powerful market tools for your users, empowering you to differentiate your business and enhance its value proposition.

Our White Label offerings streamline the hosting and infrastructure complexities, allowing us to deliver a fully branded and customized user experience.

## Whitelabel 1

Monthly subscription offers unlimited users, workflow simplicity, SSO, Integrated Strategy Builder. Fully branded, customizable, GDPR compliant, secure, 99.95% availability, mobile responsive, with monthly releases.

## Whitelabel 2

Revenue subscription with PAYG model. Workflow simplicity, SSO, Integrated Strategy Builder. Fully branded, customizable, GDPR compliant, secure, 99.95% availability, mobile responsive, with monthly releases.

# Platform SLA

Bounce is committed to delivering an exceptional level of service to both our users and partners.

## Details

### Performance

Bouncetrade.io guarantees **99.95%** uptime for our core web platform. 3rd party Market Data is subject to supplier SLA. Our real-time service status is hosted on a public domain.

### Security

Bounce Trade securely stores user data using industry-standard encryption and modern web security protocols. Platform data can be shared via pre-approved APIs, restricted to users signed up through your channels.

### Disaster Recovery

Bounce Trade employs many backup and recovery tools to help maintain our performance SLA. In the event of a major outage, we can deploy across any on-prem or cloud vendor within minutes.

**This communication serves to showcase our capabilities and is not a formal confirmation of an agreed SLA.**

# Onboarding Checklist

Before onboarding new partners, it's important to make sure we have all the details to ensure quick and easy integration with your requirements

01

Confirm Plan selection and share any out of scope requirements, for example custom indicators, 3rd party OAuth, etc.

02

Contract sharing and agreement needs to be completed before any development and admin access is granted.

03

Share desired brand assets and colour palettes for white-label branding. Once we have completed a mock up we will run through a full product demo for feedback.

04

Pre-payment and confirmed and user channel and admin access deployed in a production environment. We offer further user onboarding support and training as an optional add-on.

# THANK YOU!
